Subject Index to Volume 34

A

Acetaminophen

- combination preparations, safety packaging and severity of adult poisoning (letter to the editor), 747-749
- damage to the heart from, 145-147 (editorial commentary), 149-153, 155-156
- extended relief versus regular release, pharmacokinetics in simulated human overdose, 157-162
- overdose in a patient with glucose-6-phosphate dehydrogenase deficiency, hemolysis after, 731-734
- poisoning, the use of ondansetron in the treatment of nausea and vomiting associated with, 163-167

Activated charcoal

- hemoperfusion, for treatment of massive divalproex overdose, 335-341
- ion selective electrode potentiometry study of the effect of polyethylene glycol on chlorpromazine adsorption of, 307-316
- multiple-dose
 - in an accidental vancomycin overdose, 83-86
 - compared to urinary alkalinization for the enhancement of phenobarbital elimination, 169-175

Aerosolized leather protector, pulmonary toxicity following exposure to, 21-24

(editorial commentary), 25-26

Alcohol withdrawal syndrome, carbohydrate-deficient transferrin for identification of drug overdose patients at risk of, 297-300

Aleurites fordii (tung nut) poisoning, acute, two outbreaks of, 87-92

Aluminum phosphide ingestion, a clinico-pathologic study of, 703-706

4-Aminipyridine therapy, for desipramine toxicity in rats, 499-506

Ammonium thiocyanate and aminotriazole poisoning, fatal, 441-446

Annual Review of Pharmacology and Toxicology (book review), 478-479

Apoptosis in Normal Development and Cancer (book review), 753

Aquatic toxicology, fundamentals of (book review), 136

Atropine, plasma and urine concentrations after ingestion of cooked deadly nightshade berries, 113-117

Ayurvedic metal-mineral tonics, lead poisoning associated with, 417-423

B

Benzodiazepines screening, urine, of involuntarily drugged and robbed or raped patients, 721-724

Beta blocker overdose, relative toxicity of, 273-278

Betelnuts, in oyster shell paste, milk-alkali syndrome caused by, 741-745

Betelquid, a comparative clinico-pathological study of oral submucous fibrosis in habitual chewers of, 317-322

Blinded manuscript review, effect on acceptance, reviewer concordance, and bias (letter to the editor), 751

C

Calcium chloride therapy, for desipramine toxicity in rats, 499-506

- Carbamate poisoning, acute, clinical and sociodemographic features of, 45-51
- Carbohydrate-deficient transferrin, for identification of drug overdose patients at risk of an alcohol withdrawal syndrome, 297-300
- Carbon monoxide
 exposure, predictors in smoke inhalation patients, 61-71
 poisoning, complicated by acute renal failure, compartment syndrome, and systemic capillary leak syndrome, 713-719
- Cardiac membrane stabilizing dysrhythmias (letter to the editor), 131-132
 (author's reply), 133-134
- Chloral hydrate
 poisoning, suicidal, 97-99
 toxicity, from oral and intravenous administration, 101-106
- Chloroquine, the effect of hypertonic sodium bicarbonate on QRS duration in rats poisoned with, 73-76
- Chlorpromazine, ion selective potentiometry study of the effect of polyethylene glycol on the charcoal adsorption of, 307-316
- Cholinesterase
 plasma, *in vitro* competitive inhibition by cocaine, 77-81
 purified human plasma, for protection against cocaine toxicity in mice, 259-266
- Chronic airway inflammation, following an irritant exposure, nasal pathology and ultrastructure in patients with, 383-396
- Cocaine
 effects on human platelet aggregation *in vitro*, 673-684
in vitro competitive inhibition of plasma cholinesterase by, 77-81
 and metabolites, pigmentary relationship in human graying hair, 685-690
 toxicity, purified human plasma cholinesterase protection against in mice, 259-266
- Coin-operated dry cleaning machines, responsibility for acute tetrachloroethylene poisoning, 191-197
- Deadly nightshade berries, cooked, plasma and urine concentrations of atropine after ingestion of, 113-117
- Deferiprone, efficacy in the treatment of acute iron intoxication in rats, 279-287
- Deferoxamine
 introduction to Clinical Controversies Symposium on, 483
 parenteral
 benefits for acute iron poisoning, 485-489
 risks for acute iron poisoning, 491-497
- Dermatotoxicology* (book review), 535
- Desipramine toxicity, in rats, effect of calcium chloride and 4-aminopyridine therapy on, 499-506
- Developmental disorders, pervasive, lead intoxication in children with, 177-181
- Dextromethorphan containing cough and cold syrup, acute dystonia in a child associated with therapeutic ingestion of (letter to the editor), 351-352
- Diethylene glycol
 mass poisoning, 517-520
 toxicity, in the 1996 Haitian epidemic, 513-516
- Disaster preparedness, of poison control centers in the United States, 53-58
 (editorial commentary), 59-60
- Divalproex overdose, massive, delayed peak serum valproic acid in, treatment with charcoal hemoperfusion, 335-341
- Driving while impaired from drugs, urine toxicology screens in drivers suspected of, 37-44
- Drug overdose patients, carbohydrate-deficient transferrin for identification of those at risk of alcohol withdrawal syndrome, 297-300
- E
- ECMO. *See* Extracorporeal membrane oxygenation
- The Effects of Drugs on the Fetus and Nursing Infant* (book review), 535-536
- Elemental mercury-induced skin granuloma, 209-216
- Endosulfan 30% in xylene (Thiodan), intravenous self-poisoning with, 447-452
- Environmental Toxicology Assessment* (book review), 135
- Epsom salt, hypermagnesemia following an acute ingestion by a patient with normal renal function, 735-739

- Erythromycin-induced acute pancreatitis, 93-95
Ethanol, gabapentin, and valproic acid
 intoxication, 437-439
Ethylene glycol poisoning, 4-methylpyrazole and
 hemodialysis in, 373-377
 (editorial commentary), 379-381
Extended relief versus regular release Tylenol,
 pharmacokinetics in simulated human
 overdose, 157-162
Extracorporeal membrane oxygenation (ECMO)
 benefits for hydrocarbon pneumonitis, 357-363
 introduction to Clinical Controversies
 Symposium on, 355
 risks of, role in the management of the acutely
 poisoned patient, 365-371

F

- Fluorosis, skeletal, circulating testosterone levels
 in patients with, 183-189
Food related pulmonary toxicity, associated with
 consumption of *Sauropus androgynous*
 vegetable, 1-8
 (author's reply to letter to the editor), 527-528
 (editorial commentary), 9-11, 13-14, 15-20
 (letter to the editor), 525-526

G

- Gabapentin, valproic acid, and ethanol intoxica-
 tion, 437-439
Gasoline sniffers, in an aboriginal community,
 evaluation of unleaded petrol as harm
 reduction strategy for, 27-36
Genotoxicology and risk assessment, in the era of
 the human genome project, 521-523
Glucose-6-phosphate dehydrogenase deficiency,
 hemolysis after acetaminophen overdose in
 a patient with, 731-734
Graying hair, human, pigmentary relationship of
 cocaine and metabolites in, 685-690
Gut bacteria, role in human toxicology and
 pharmacology (book review), 136-137

H

- Halothane induced hepatitis, speculation on

- mechanistic similarity of hepatitis, rash, and
 eosinophilia following trichloroethylene
 exposure, 461-466
Heart damage, from acetaminophen, 145-147
 (editorial commentary), 149-153, 155-156
Hemodialysis, in ethylene glycol poisoning,
 373-377
 (editorial commentary), 379-381
Hemolysis, after acetaminophen overdose in a
 patient with glucose-6-phosphate
 dehydrogenase deficiency, 731-734
Hepatotoxicity, in patients on long-term
 methotrexate therapy, increased matrix
 proteins, collagen, and transforming growth
 factor as early markers of, 301-305
Herbicide, fatal ammonium thiocyanate and
 aminotriazole poisoning, 441-446
Heroin, intravenous, and heroin mixtures,
 naloxone for, 409-416
Hexogen poisoning, acute, after occupational
 exposure, 109-111
Human genome project, genotoxicology and risk
 assessment in the era of, 521-523
Hydrocarbon pneumonitis, benefits of ECMO for,
 357-363
Hydrogen cyanide exposure, predictors in smoke
 inhalation patients, 61-71
Hydrogen peroxide 3% exposures, 323-327
Hydroxocobalamin, pharmacokinetics in smoke
 inhalation victims, 397-404
Hypermagnesemia, following an acute ingestion
 of epsom salt in a patient with normal renal
 function, 735-739
Hypertension, severe, ultra-high dose
 trimethaphan in an infant with, 227-229
Hyperthermia, caused by marijuana, 217-221
Hypoglycemia, associated with phenytoin
 intoxication, 205-208
Hypoxic coma, prolonged, following opiate
 overdose, myocardial damage and
 rhabdomyolysis associated with, 199-203

I

- Imported clothing accessory, as a cause of severe
 lead poisoning, 329-333
International data collection and evidence-based
 clinical toxicology (letter to the editor),
 647-649

- Intracardiac injection, of T-61® veterinary euthanasia drug, 235-239
- Intravenous drug users, blood lead of, 425-430
- Iodine toxicity, fatal iatrogenic, in a nine-week-old infant, 231-234
 - (author's reply to letter to the editor), 533
 - (letter to the editor), 531
- Iron
 - intoxication, acute, efficacy of deferiprone treatment in rats, 279-287
 - poisoning, acute
 - benefits of parenteral deferoxamine for, 485-489
 - risks of parenteral deferoxamine for, 491-497

L

- Lead
 - in the blood of intravenous drug users, 425-430
 - intoxication
 - caused by ingestion of contaminated ground paprika, 507-511
 - in children with pervasive developmental disorders, 177-181
 - poisoning
 - associated with the use of ayurvedic metal-mineral tonics, 417-423
 - induced by abdominal x rays, 107-108
 - severe, from an imported clothing accessory, 329-333
 - testing kit for home use, sodium rodizonate, validity for paint and soil samples, 699-702
 - toxicity, of gasoline sniffers, evaluation of unleaded gasoline as a harm reduction strategy for, 27-36
- Leather protector, aerosolized, pulmonary toxicity following exposure to, 21-24
 - (editorial commentary), 25-26
- Lithium levels, falsely elevated, in plasma samples obtained in lithium containing tubes, 467-469
- Low alcohol drinks and the risk of high blood alcohol in children (letter to the editor), 349-350

M

- Marijuana, hyperthermia caused by, 217-221
- Methamphetamine users, intravenous, blood lead

- of, 425-430
- Methotrexate therapy, long term, increased matrix proteins, collagen, and transforming growth factor as early markers of hepatotoxicity in patients on, 301-305
- Methylenedioxyethylamphetamine (MDEA), two fatal cases associated with the use of (letter to the editor), 241-244
- 4-Methylpyrazole, in ethylene glycol poisoning, 373-377
 - (editorial commentary), 379-381
- Microbial quality assurance (book review), 755
- Milk-alkali syndrome, caused by betelnuts in oyster shell paste, 741-745
- Mistletoe ingestion, retrospective study of, 405-408
- Moclobemide, suicide attempts with, 223-225
- Molecular medicine methods, human cell culture protocols (book review), 477-478
- Multiple system organ failure, intermediate syndrome, congenital myasthenic syndrome, and anticholinesterase treatment (letters to the editor), 245-246, 249-250
 - (author's reply), 247

N

- Naloxone, for intoxications with intravenous heroin and heroin mixtures, 409-416
- Neuromuscular blockade, prolonged paralysis after (letter to the editor), 253
- Nicotine
 - poisoning, as a cause of cardiac arrest (letter to the editor), 475-476
 - self-poisoning, among adults using multiple transdermal nicotine patches, 691-698
- North American Congress of Clinical Toxicology Annual Meeting
 - abstract review committee, 643
 - abstracts, 553-636
 - author index, 637-641
 - program and preliminary outline, 539-551

O

- Obstructive ventilatory impairment, associated with consumption of *Sauropus androgynous* vegetable, 1-8

- (author's reply to letter to the editor), 527-528
(editorial commentary), 9-11, 13-14, 15-20
(letter to the editor), 525-526
- Occupational exposure, acute hexogen poisoning after, 109-111
- Ondansetron, for the treatment of nausea and vomiting associated with acetaminophen poisoning, 163-167
- Opiate overdose, myocardial damage and rhabdomyolysis associated with prolonged hypoxic coma following, 199-203
- Oral hypoglycemic overdose, a five year retrospective evaluation of sulfonyleurea ingestion in children, 267-270
(editorial commentary), 271-272
- Oral submucous fibrosis, in habitual chewers of pan masala and betelquid, a comparative clinico-pathological study of, 317-322
- Organophosphate
 intoxication, acute pancreatitis following, 343-347
 poisoning, acute, clinical and sociodemographic features of, 45-51
- Oyster shell paste, milk-alkali syndrome caused by betelnuts in, 741-745

P

- Pan masala, a comparative clinico-pathological study of oral submucous fibrosis in habitual chewers of, 317-322
- Pancreatitis, acute
 erythromycin-induced, 93-95
 following organophosphate intoxication, 343-347
- Paprika, contaminated ground, lead intoxication caused by ingestion of, 507-511
- Particle Overload in Rat Lung and Lung Cancer—Implications for Human Risk Assessment* (book review), 537
- Phenobarbital elimination, multiple-dose activated charcoal compared to urinary alkalization for enhancement of, 169-175
- Phenytoin intoxication, hypoglycemia associated with, 205-208
- Platelet aggregation *in vitro*, human, effects of cocaine on, 673-684
- Pneumonitis, hydrocarbon, benefits of ECMO for, 357-363

- Poison control centers, in the United States, disaster preparedness of, 53-58
(editorial commentary), 59-60
- Poisoning and Toxicology Handbook* (book review), 537-538
- Poland, the National Poison Information Center in, 669-672
- Polyethylene glycol, effect on the charcoal adsorption of chlorpromazine studied by ion selective electrode potentiometry, 307-316
- Potassium ferricyanide, suicide attempt by ingestion of (letter to the editor), 471-473
- Pralidoxime, pharmacokinetics of a loading plus a continuous infusion compared with the traditional short infusion regimen of, 289-295
- Propoxyphene overdose, in Chinese subjects (letter to the editor), 251-252
- Pulmonary toxicity
 following exposure to an aerosolized leather protector, 21-24
 (editorial commentary), 25-26
 food related, associated with consumption of *Sauropus androgynous* vegetable, 1-8
 (author's reply to letter to the editor), 527-528
 (editorial commentary), 9-11, 13-14, 15-20
 (letter to the editor), 525-526
 hydrocarbon induced, artificial surfactant administration in an animal model of (abstract), 139

Q

- QRS duration, in rats poisoned with chloroquine, the effect of hypertonic sodium bicarbonate on, 73-76

R

- Radoxone TL poisoning, fatal, 441-446
- Reactive airways dysfunction syndrome and reactive upper airways dysfunction syndrome, following an irritant exposure, nasal pathology and ultrastructure in patients with, 383-396
- Risk-benefit assessment, of silver products for medical indications, 119-126

Russia, information technologies for clinical toxicology in, 665-668

S

- Salicylism, from topical salicylates, 431-436
Sauropus androgynous vegetable, outbreak of obstructive ventilatory impairment associated with, 1-8
 (author's reply to letter to the editor), 527-528
 (editorial commentary), 9-11, 13-14, 15-20
 (letter to the editor), 525-526
 Silver products, for medical indications, risk-benefit assessment of, 119-126
 Skeletal fluorosis patients, circulating testosterone levels in, 183-189
 Skin granuloma, elemental mercury-induced, 209-216
 Smoke inhalation patients
 pharmacokinetics of hydroxocobalamin in, 397-404
 predictors of carbon monoxide and hydrogen cyanide exposure in, 61-71
 Sodium bicarbonate, hypertonic, effect on QRS duration in rats poisoned with chloroquine, 73-76
 Sodium monofluoroacetate intoxication, clinical presentation and prognostic factors in, 707-712
 Sodium rodizonate lead testing kit for home use, validity for paint and soil samples, 699-702
 Suicidal chloral hydrate poisoning, 97-99
 Sulfonylurea ingestion, in children, a five year retrospective evaluation of, 267-270
 (editorial commentary), 271-272

T

- T-61® veterinary euthanasia drug, intracardiac injection of, 235-239
 Taiwan National Poison Center, epidemiologic data 1985-1993, 651-663
 Testosterone levels, circulating, in skeletal fluorosis patients, 183-189
 Tetrachloroethylene poisoning, acute, responsibility of coin-operated dry cleaning machines for, 191-197
 Thiodan, intravenous self-poisoning with, 447-452

- Thiomersal, clinical course of severe poisoning with, 453-460
 Thioridazine cardiotoxicity (letter to the editor), 127-128
 (author's reply), 129-130
 Toad venom poisoning, failure of a monoclonal digoxin immunoassay to cross-react with the cardioactive steroids (letter to the editor), 529-530
 Topical salicylates, salicylism from, 431-436
 Toxic drugs and chemicals, disposition in man (book review), 255
 Toxicology
 basic (book review), 753-754
 mechanisms and concepts in (book review), 754-755
 Toxicology screens, urine
 for benzodiazepines in involuntarily drugged and robbed or raped patients, 721-724
 in drivers suspected of driving while impaired from drugs, 37-44
 Transdermal nicotine patches, multiple, self-poisoning among adults using, 691-698
 Transferrin, carbohydrate deficient, for identification of drug overdose patients at risk of an alcohol withdrawal syndrome, 297-300
 Trichloroethylene exposure, hepatitis, rash, and eosinophilia following, speculation on mechanistic similarity to halothane induced hepatitis, 461-466
 Trimethaphan, ultra-high dose, in an infant with severe hypertension, 227-229
 Tung nut (*Aleurites fordii*) poisoning, acute, two outbreaks of, 87-92
 Tylenol, pharmacokinetics of extended relief versus regular release in simulated human overdose of, 157-162

U

- United States, disaster preparedness of poison control centers in, 53-68
 (editorial commentary), 59-60
 Unleaded gasoline, evaluation as a harm reduction strategy for gasoline sniffers in an aboriginal community, 27-36
 Urinary alkalization, compared to multiple-dose activated charcoal for the enhancement of phenobarbital elimination, 169-175

Urine toxicology screens

- for benzodiazepines in involuntarily drugged and robbed or raped patients, 721-724
- in drivers suspected of driving while impaired from drugs, 37-44

V

- Valproic acid, gabapentin, and ethanol intoxication, 437-439
- Vancomycin overdose, accidental, multiple-dose activated charcoal in, 83-86
- Vegetables, *Sauropus androgynous*, food related pulmonary toxicity associated with, 1-8

- (author's reply to letter to the editor), 527-528
- (editorial commentary), 9-11, 13-14, 15-20
- (letter to the editor), 525-526

X

- X rays, abdominal, lead poisoning induced by, 107-108

Z

- Zinc and copper sulfate preparation, accidental ingestion of, 725-730
